

National Finance Officers Report 2017

I have enjoyed my time as NFO although it has been a challenging year.

This year has seen a number of issues dealt with at the NEC but the Main issue regarding signatories on the account is still ongoing.

I hope to address this once and for all at this years AGM.

Risk Assessment's

I have received Risk Assessment's Mainly from Francis please keep them coming for reference.

Insurance

I have managed to reduce the cost of insurance to the Federation By a third with a policy that reflects our membership and current Status.

Finances

The Federation Finances have been boosted by recovering income from accounts now not fit for the purpose they were meant for.

Current Balance: £20,474.75 as of 1/1/18.

To balance this, I will be making a presentation to the NAGM about The National Guarantee Scheme and the National Event Support scheme.

NFO Recommendations

In light of the problems associated with the account I plan to obtain a copy of the form for signatories so that any future handover will be as smooth as possible.
