

Independent Examiner's report to NAGM 2025

I have audited the National accounts, and also the separate event accounts, for 2024.

The Federation's net worth as at 31/12/24 is comprised of

National accounts	£19,791.03
NAGM event accounts	£571.70
Spring Holiday event accounts	£1,415.45
So in total	£21,778.18

Both the main National accounts spreadsheets and the events spreadsheets are complete. As last year, the event spreadsheets show the income and expenditure for the year, plus the overview for the actual events in 2024 (showing event surplus or deficit).

National has bank accounts at both Lloyds and NatWest:

- National x 2 – Lloyds (in use)
- NAGM – Lloyds
- 80th – Lloyds (likely to be closed as empty)
- National x 2 – NatWest (empty)
- Spring Holiday – NatWest

The National Finance Officer owes £272.50 to National. This was accurately shown in the accounts he provided.

The National Chairman only became aware of the error made in the accounts after my initial report was issued.

He then had a discussion to understand the error that had been made and accepted the explanation given by the National Finance Officer.

The National Chairman then asked for safeguards to be set on the account to mitigate such errors in the future.
